THE DARK SIDE OF SNOW WHITE.

[www.chili-candy.com](http://www.chili-candy.com)

Inspired by the dark Side of Snow White, the Viennese Fashion Designer Aniko Balazs presents her new label Chili Candy. Sweet and hot – the game of polarities and the newest techniques in e-commerce.

Designer Aniko Balazs presents her A/W 18/19 Collection with a game of styles between Fantasy, Rock, a touch of glamorous Gothic and the most traditional austrian garment - the Dirndl - witch turns into an urban must have.

The Collectionpieces are playful and sweet as candy but hot and provocative as chilly pepper. Mostly in black and white they show the bright and the dark side of wicked Snow White!

All this can be configured and ordered in a playful way online by fashionable and creative Fashionistas to assure their very own personal style.

# Chili Candy

**Basicly inspired from the most feminin garment – the classical austrian Dirndl, a corselet and a wide swinging skirt, this collection moves in the most innovative combination of garments and style.**

The classic austrian Dirndl blouses turn into jersey shirts. Martial Camouflage will be whimsically combined with the innocence of white tulle. Sweet, playful and girlish can turn quickly into straight provocation. The lovely flouncy swinging skirt will be combined with black leather, rivets of skulls and red, hot chilly peppers.

This is the look of the dark side of Snow White!

**An extravagant collection joined with innovative techniques at the edge of time.** Despite digital shopping, enjoy personal style counseling as well as the emotional experience and the joy of a shopping tour. Creating fashion is to play with style, colors, forms, materials, details and inspiration. Tapping into creative combinations without end built on the aesthetics and sense of style of Chili Candy designers collection.
